Order entered: 5/16/2007

ORDER RE MODIFICATION OF QUEEN CITY SUBSTATION PLANS

On December 29, 2006, the Public Service Board ("Board") approved the final construction and landscape plans for the expansion of the Queen City substation. On April 5, 2007, Vermont Electric Power Company, Inc., and Vermont Transco, LLC (collectively "VELCO"), filed a letter stating that modifications to the design of the substation were required to allow for the incorporation of 34.5 kV transformer disconnects and the shift of Green Mountain Power Corporation's 34.5 kV line entering the substation.

On April 6, 2007, the Board issued a memorandum establishing a deadline for comments. On April 17, 2007, the City of South Burlington filed a letter stating that it has no objection to VELCO's proposed changes. On April 17, 2007, the Department of Public Service filed a letter stating that it has no objection to VELCO's modified plans for the substation but wants to ensure

that VELCO contacts affected landowners to determine if there are any unresolved disputes. No other party filed comments regarding the proposed modifications. On May 15, 2007, VELCO filed a letter representing that the Queen City Park residents have no concerns with respect to the requested changes.

The Board approves the modifications to the Queen City substation as reflected on the plans filed with the Board on April 5, 2007.

SO ORDERED.

Dated at Montpelier, Vermont, this 16th day of May, 2007.
